

The 4 Hidden Causes of Erection Problems

& How to End YOUR Erection Problem Forever

By Jacqui Olliver
The Sex Technique Modifier

Welcome, I'm Jacqui Olliver. I'm the Sex Strategy Specialist. I teach men how to easily END sexual problems and erection problems including **premature ejaculation, erectile dysfunction (weak erections) AND sexual frustration.**

In this report I'm going to share with you the previously unidentified **underlying** causes of erection problems and how to end these problems so you can remove performance anxiety and immediately begin to improve your ability to relate intimately.

"I feel like a new man – a 30 year old one! How wonderful to have such control, 15 to 30 minute love making and not totally bugged at the end. I am so grateful to you, for how you have helped me. What wonderful changes to my love life – I am having trouble finding words to explain myself."

Ben (72) - Northland, New Zealand

A lifetime of premature Ejaculation AND Erectile Dysfunction gone after one week of practicing my unique 'switching' technique.

So what causes erection problems?

The hidden causes of erection problems include:

- => **Suppression** of sexual arousal
- => **Your partner's unwillingness to have sex** with you
- => **An inability to stay focused** on the sexual act
- => **Lacking the knowledge** to actually attain and maintain a strong erection as well as full control.

Now let's look at these in more detail:

Suppression of sexual arousal leads to weakness in your PC muscle. The PC muscle controls all movement of your penis and controls ejaculation. **Every** time you suppress your sexual arousal you are causing your penis to become weaker!

Reasons for suppressing sexual arousal include:

- => Stress, anxiety, workload
- => Personal inactivity
- => Lack of exercise
- => No desire
- => **An inability to redirect sexual arousal**

Your partner's unwillingness to have sex with you – if your partner is reluctant to have sex with you,

She may be:

- => **Feeling emotionally** unfulfilled by you
- => **Feeling disconnected** from you
- => **Feeling unfulfilled** by your technique
- => **Feeling pressured** to have sex
- => **Feeling unfulfilled** by the amount of **performance time** you give her

In many cases **this** is the main reason for relationship breakup because it creates doubt!

Doubt for you – of your ability to perform...
Doubt for her – of your ability to fulfil her.

Then there is the inability to stay focused on the sexual act

The more worried you are about performing and maintaining a strong erection, the worse your erection problem (and relationship problems) become.

Due to this continuous mental pressure, you completely **lose your ability to focus on attaining (and maintaining) an erect penis** during the sexual act **AND** lose your ability to feel emotionally connected to your partner during and after sex.

Without the right focus, your brain and body are unable to unite during sex to achieve the desired result - which is to attain a hard erection, maintain a hard erection (with full control) **AND** stay emotionally connected to your partner at the same time.

In this report I have identified the 4 hidden causes of erection problems. To be able to attain (and keep) an erection you need to address ALL of these causes. Otherwise you may only partially heal your erection problem – and you could be doomed to having weak erections – and struggling to retain confidence in your relationship, for the rest of your life.

MANY of my clients suffered from these problems for **YEARS** and were **NEVER** able to resolve them **UNTIL they learned my technique.**

If you want to achieve a **superior** sex life, I can supply the answers.

I teach a new technique which fully explains the reasons you are underperforming. Within two hours, you will totally understand the mechanics required to **TOTALLY RESOLVE** your **SEXUAL PROBLEMS!**

This method is unique to me and is unavailable elsewhere.

Imagine how great it would be to be rid of this horrible problem forever?

My unique switching technique enables you to **END** all erection problems, so you can eliminate sexual frustration and performance anxiety and gain the confidence you need to succeed in your most important relationship – that of you and your partner.

One 1.5 hour session is usually enough to eliminate your erection problem. If you have deeper relationship issues or other problems, a longer session or follow up session may be required.

I guarantee your privacy and I will never judge you. Sessions are available online via Skype video, or in person at my private clinic in Auckland, New Zealand.

Ben suffered from sexual problems for all of his adult life because he procrastinated and put off dealing with them. He now hopes that his feedback will encourage other men to get past their anxiety and embarrassment about booking their session - so they too can end their erection and relationship problems.

Please contact me now to discuss your session. I look forward to helping you end your sexual and relationship problems and to gain the confidence in intimacy which you deserve.
